for Zayed Foundation, MEP works

VISION

DAR is a progressive, caring company with a fresh clear vision for the future. Our mission is to deliver sharply focused services, which satisfy the growing demands of civil construction. DAR is committed to providing comprehensive turnkey electro-mechanical solutions.

THE FOUNDATION

Extending its services and commercial capabilities to the construction section since 1996. Based in Dubai, DAR is registered as an Electro-Mechanical and General Maintenance company. DAR is managed by a highly qualified group of professionals using the latest technology to deliver speedy and efficient results. DAR is also a member of supportive societies and institutes.

THE STRUCTURE

DAR is specialized in the construction services of residential, commercial or industrial buildings. The professional handling of electro-mechanical projects, from consulting, through the value chain to commissioning and system start-up. Placing a strong emphasis on experience, capability and skills, our technical teams are always empowered for mobilization to execute allocated project sites in accord with the client requirements.

THE MISSION

From circuits to generators, from mechanical system components to project economics and computer applications, from safety to quality control, from recommendations to realization - all have been integral to the success of DAR. Always reliable, DAR continually exceeds client expectations, on time - every time.

THE BUILDING BLOCKS

Safety, quality and control are integral to the success of DAR. Providing a value based structure to our company philosophies and policies, safety, quality assurance and control procedures, are implemented throughout our operating divisions, without costly delays while preserving the health and safety of our employees and our working environment.

SAFETY ASSURANCE

Ensuring the health and safety of our employees, contractors, and clients is fundamental to success in the construction business. At DAR, management and employees work together to maintain safe and healthy working conditions while contributing to efficient operations.

QUALITY ASSURANCE

Quality control, reliability and value are the hallmarks of DAR's vision. Teaming and innovative approach, organized and documented quality assurance and control system, and ISO 9002 standards. DAR ensures client confidence and satisfaction. Today and tomorrow, DAR remains committed to excellence.
